EDUCATION

University of San Diego

San Diego, CA

Master of Science in Applied Data Science

May 2023

Relevant Coursework: Text Mining, Cloud Computing, Data Engineering, Time Series Analysis, Data Science for Business, Machine Learning and Deep Learning, Predictive Modeling, Data Mining, Data Science Programming, Probability and Statistics

Bachelor of Science/Bachelor of Arts in Industrial and Systems Engineering

May 2021

SKILLS

Certifications: Six Sigma Green Belt

Technical Skills: SQL, Python, R, AWS, Tableau, Git, Statistics, Data Mining, Machine Learning

Languages: Spanish (Native), English (Fluent)

PROJECTS

Customer Churn Prediction and Retention Strategy, Data Mining Class

Fall 2022

- Developed a predictive model to forecast customer churn for a subscription-based business.
- Utilized text mining for sentiment analysis, implemented machine learning algorithms, and recommended a targeted retention strategy. Reduced churn rate by 15% and increased customer retention by 20%.

Sales Forecasting using Time Series Analysis, Time Series Analysis Class

Spring 2022

- Utilized time series analysis techniques to forecast future sales for a retail company.
- Cleaned and analyzed historical sales data, selected appropriate models, and evaluated forecast accuracy. Enabled optimized inventory management, resulting in a 10% reduction in stockouts and improved decision-making.

PROFESSIONAL EXPERIENCE

Data Scientist Intern, XYZ Corporation, Sunnyvale, CA

May 2022 - Aug. 2022

- Utilized advanced statistical analysis techniques to analyze customer segmentation and purchasing patterns, processing a dataset of 50 million records.
- Developed a predictive model using machine learning algorithms, achieving a 75% accuracy rate in forecasting customer churn and supporting retention efforts.
- Conducted A/B tests to evaluate the effectiveness of marketing campaigns, resulting in a 15% increase in click-through rates and a 10% boost in conversion rates.
- Collaborated with cross-functional teams to implement a data pipeline and automate data processing, reducing data processing time by 50% and improving overall efficiency.

LEADERSHIP & COMMUNITY SERVICE

San Diego Chapter Vice President, National STEM Student Association

Sept. 2020 - May 2021

- Oversaw the operations of a chapter of a national STEM Student Association and a \$40,000 annual budget, representing the interests of over 500 student members.
- Spearheaded the planning and execution of various STEM-focused events, including workshops, seminars, and networking sessions, attracting an average attendance of 200 participants per event.

Volunteer Tutor, STEM ABC Outreach Program, San Diego, CA

May 2019 - May 2021

- Provided weekly math and science tutoring sessions to students from under-resourced communities, promoting academic success and fostering interest in STEM fields.
- Collaborated with a team of tutors to develop customized study materials and lesson plans, resulting in a 10% improvement in student grades and a higher participation rate in STEM-related activities.
