EDUCATION

University of San Diego Shiley-Marcos School of Engineering

San Diego, CA

Dual Degree: BS/BA in Industrial and Systems Engineering

Expected Completion: May 2024

Major GPA: 3.7 Overall GPA: 3.5

- Minor in Supply Chain Management
- Relevant Coursework: Design of Experiments, Sustainability and Engineering, Manufacturing Systems, Operations and Supply Chain Management, Facilities Management

San Diego Mesa College

San Diego, CA

Associate of Science in Engineering

June 2021

SKILLS

Computer Software: Microsoft Visio, Access, Excel, Word, PowerPoint

Certifications: Six Sigma Green Belt

ENGINEERING PROJECTS AND EXPERIENCE

Senior Design Project | Team Lead

Fall 2023

- Worked on a team of three to simulate a full-scale building site assessment, foundation design, cost estimates, scheduling and productivity management
- Used AutoCad to design all structural components
- Presented results of this project to faculty, teaching assistants and over 40 peers

Oracle | Intern

Summer 2023

- Researched and interviewed staff to determine the current business processes of USD's NROTC department to help Oracle implement a new schoolwide database system
- Created process flow diagrams for every distinguishable departmental operation
- Presented final project findings at the 2022 USD Creative Collaborations Undergraduate Research Conference

PROFESSIONAL EXPERIENCE

U.S. Air Force

Edwards, CA

Manager, Aircraft Maintenance

September 2015 - May 2019

- Evaluated the performance of 26 maintenance technicians on a daily basis
- Managed maintenance of equipment assets including aircraft hydraulic components and landing gear valued at over \$1.5M
- Saved 110 hours per month on aircraft maintenance procedures by streamlining key steps, a 35% increase in efficiency
- Trained over 80 aviation maintenance technicians in hydraulic systems maintenance and repair

U.S. Air Force

Edwards, CA

Ground Support Equipment Technician

February 2012 - August 2015

- Maintained airborne equipment including hydraulic pumps and cylinders for the Maintenance Department
- Retrofitted 90 Air Start Units with new electronic governors as a member of the Air Start team
